

PUTERA MIC Penang Proposal for Election Committee 2011

1. Automated Voter Registration
 - automatically register voter when the youth become 21 years old
 - against the constitution
 - serious matter is number of voter voting on election day
 - 'no point having everyone as voter when only some one comes out to vote'
2. Political party to declare where they got funding from
 - political party should provide audited account for public viewing
 - candidates to declare assets before election
3. Free Media
 - All the parties, political leaders should allow media coverage
 - Opposition claims that print media is pro government is untrue
 - Federal Government doesn't ban papers like Harakah
 - Example: Penang Government bans Utusan
