93  Part 5 Secretariat

99  Part 6 Audited Statement Of Accounts
Congratulations to the All-Party Parliamentary Group Malaysia on Sustainable Development Goals (APPGM-SDG) on the publication of this 2021 Annual Report.

I would like especially to thank YB Dato’ Sri Rohani Abdul Karim and YB Puan Maria Chin Abdullah, Chairman and Vice Chairman of APPGM-SDG, as well as the APPGM-SDG Committee Members and Secretariat headed by Prof. Datuk Dr Denison Jayasooria.

I am pleased to note that in 2021, APPGM-SDG successfully built upon their work in the previous year by expanding the number of parliamentary constituencies they work in 10 in 2020 and additional of 20 new parliamentary constituencies in 2021. In addition, the team undertook a total of 87 projects in partnership with domestic players at the grassroots level.

Malaysia’s unwavering commitment to achieving the SDGs is underscored by ‘Phase 2 of the SDG Road Map (2021-2025)’. This vital policy document will align and be integrated with Malaysia’s development priorities.

The Government remains steadfast in its goal of achieving the 2030 Agenda. The Economic Planning Unit (EPU) of the Prime Minister’s Department remains in close partnership with APPGM-SDG, as well as the Malaysian CSO-SDG Alliance. We are keen to continue building upon this relationship.

Thank you to all Members of Parliament involved, CSO leaders and grassroots communities. Once again, I would like to congratulate APPGM-SDG and wish them all the best and continued success in their noble endeavours.

The APPGM-SDG is a unique organisation. It is a bipartisan working group under the framework of the APPGM with a specific focus on Sustainable Development Goals. The SDGs are very relevant at the global, national and local levels.

We are now in operation for two years with a good team of members of parliament and with the support of academics and civil society who make up the secretariat. While the committee and participating MPs are from different political parties, however in the APPGM-SDG agenda we have a common objective of resolving local issues and working with a bipartisan agenda on ensuring no one individual or family is left behind.

In adopting SDG 10.2 we jointly seek to “empower and promote the social, economic and political inclusion of all”. This is a cross-cutting agenda where a disaggregated data analysis is needed so that inclusion is “irrespective of age, sex, disability, race, ethnicity, origin, religion or economic or other status”. This is a cornerstone of the SDGs.

While the majority of our activities are national and local, we have had opportunities to participate in two global events among parliamentarians and SDGs. These global networking events have further enhanced the visibility of the APPGM-SDG. The first is at the July 2021 HLPF which was online organised by the Danish Government on 12 July 2021. This was a panel on the role of parliaments in Argentina, Denmark, and Malaysia – how do we ensure broad cooperation in achieving the Sustainable Development Goals? A second opportunity arose when the Danish APPG hosted on 11 November 2021 an SDG Chairs Forum, SDG All-Party Parliamentary Groups/Caucus.

Let me take this opportunity to thank YB Dato’ Sri Mustapa Mohamed and the Director General of EPU YB Datuk Seri Saifuddin Bin Abdullah for their partnership with EPU in localising SDG. Appreciation is due to the Minister of Finance YB Senator Datuk Seri Utama Tengku Zafrul for the approval of funds for the work of the APPGM-SDG at the grassroots. I thank the secretariat headed by Prof Datuk Dr Denison Jayasooria and his team for the hard work in the coordination of all the programmes as well as in the preparation of this report.
Congratulations to all the members of parliament (MPs), the APPGM-SDG secretariat, and all those who have participated in and supported our initiative to localise SDGs at grassroots levels. I am proud to be part of this second report on the 2021 activities of the APPGM-SDG which gives a comprehensive account of the innovative activities. Our initiative has grown to another additional 20 MPs and we are sharing here the three-day field visits, the mapping report, and local priorities including the proposal and approval of the solution projects.

One of the key highlights of 2021 was the Malaysian VNR Report which had many webinars, where we spoke of the way forward in addressing public policy concerns. APPGM-SDG has always taken a bottom-up approach in crafting a more holistic approach in addressing economic, social and environmental concerns from a peace, justice and human rights framework. During these webinars, I raised a number of concerns and recommendations which I like to repeat here as we discussed them in the context of the High-Level Political Forum and the 2021 Voluntary National Review Report.

Due to the Covid pandemic, more needs to be done in addressing poverty and inequality, especially a review of the Poverty Line Income for households and enhancement of the Multi-dimensional poverty indicators to capture acute deprivation of basic and daily living standards. There is also a need to introduce a comprehensive social safety net to include and protect the most vulnerable so as to be better prepared for future pandemics and shocks. This includes creating a conducive political, social and sustainable eco-system for all.

Let us also extend our focus to the urgent need for the inclusion of migrants, refugees and undocumented workers who are here in Malaysia. Their access to justice and right to livelihood are still issues of concern. Effective and people-oriented mechanisms are much needed to manage these challenges as they do affect our economic recovery strategies.

Now is also the time for us to build resilience and adopt a multi-dimensional approach to our governance structures. The 17 SDGs are interrelated and cross-cutting, and I am particularly concerned with their implementation as weak governance will not bring justice, inclusiveness and peace to a nation. Stable law and order with strong checks and balances at all levels will help to eliminate all forms of violence, address corruption and abuse of powers and end all repressive laws.

We need political commitment to implement urgent reforms at the three pillars of democracy. This does demand stronger institutions from the bottom-up approach with the active participation of all grassroots, academicians, politicians and civil society activists. Empowerment through people’s participation at all levels of decision-making will bring dignity and trust to the people. I have always pushed for integrity and trust for Polis Diraja Malaysia (PDRM). However, having an Independent Police Conduct Commission (IPCC) but lacking the teeth to deliver its tasks to end corruption, death in custody and abuse of powers within the police force will not garner well for compliance with SDG 16.

I am assured that APPGM-SDG MPs and the secretariat will give much attention to macro public policy concerns to seek long-term solutions in the coming 2022 and 2023 agenda. Heartfelt thanks to the APPGM-SDG committee of MPs, all participating MPs as well as the secretariat members and resource persons for such remarkable achievement and sterling performance in the year 2021.

Martabat untuk semu
I am delighted to pen a few words for the 2021 Annual Report of the All-Party Parliamentary Group Malaysia on the Sustainable Development Goals (APPGM-SDG).

Currently, there are five APPGMs. In addition to the APPGM-SDG, others focus on:
- Policy on Refugees in Malaysia
- Prison and Detention Centre Reforms
- Urban Poverty & B40 Community
- Political Financing

The APPGM enables parliamentarians across the political divide to work on an area of common interest and to incorporate academics, civil society and private sectors in a whole nation approach. This approach also facilitates greater interaction between parliamentarians and the public.

The APPGM-SDG is making great progress in its engagement with parliamentarians. In its first year (2020), it reached out to 10 Members of Parliament, and in 2021, another 20 MPs. The engagement of MPs at the constituency level in identifying local issues, and undertaking ground-level solution projects help improve the lives of everyday people. Besides this, the APPGM-SDG has also facilitated greater engagement with non-parliamentarians and non-state actors in matters of national concern.

On a monthly basis, I am briefed by the APPGM-SDG secretariat team, which provides regular updates on their activities and financial statements, which shows active participation.

The APPGM-SDG model has created space for bipartisan action on local and national concerns. Concerns pertaining to local development, climate change and enhancing grassroots democracy through the 17 SDGs are vital and necessary.

As Speaker of the House, I encourage more policy discussions to be had, in order to strengthen parliamentary views on national development concerns, especially matters pertaining to poverty and inequality, discrimination and gender equality, peace and justice concerns as well as the sustainability agenda.

I take this opportunity to congratulate the APPGM-SDG Chair, Deputy Chair as well as the Head of Secretariat for their tireless effort in ensuring the activities were smooth running. I encourage all Members of Parliament to support this initiative.
It is a genuine honour to be asked to provide a preface to the All-Party Parliamentary Group Malaysia (APPGM-SDG) Report-2021.

On behalf of the United Nations in Malaysia, I start by congratulating the members of the APPGM-SDG for the impressive journey in strengthening people’s and communities’ ownership and agency in delivering the SDGs. I also commend YB Dato’ Sri Hajah Rohani Abdul Karim as Chairperson and YB Puan Maria Chin Abdullah as Deputy Chairperson for their leadership, and the Malaysia CSO-SDG Alliance for their vital support both as a secretariat and a network able to provide knowledge and expertise.

Seven years on, and with major setbacks down an already rocky road, the world is off track to achieving the Sustainable Development Goals by 2030, and the global mobilization to deliver an inclusive, just and sustainable future remains inadequate. Following the years of the pandemic and the unfolding cost of living crisis, the 2030 Agenda has reached a definitive moment and cannot afford further delays. These troubling dynamics are also pertinent for Malaysia.

We need to act now. Building back better means delivering socially inclusive development that provides opportunities for all and leaves no one behind; and one which is environmentally sustainable, protecting people from the impacts of climate change and curbing the degradation of natural resources. This also means addressing the severe socioeconomic retrenchment we have seen.

Advancing the SDGs is about mobilizing everyone everywhere, and local action is a key pillar to progress. The APPGM-SDG initiatives have succeeded in raising awareness and ownership, fostering collaboration, breaking political barriers, advancing innovative solutions, and leveraging resources, including volunteerism and community participation. Capitalizing on the representative functions of parliamentarians and their ties with constituencies and local communities, they have contributed to identifying needs and gaps and the appropriate solutions to address them.

The results on the ground carry the promise of long-term impact on individuals and communities. The APPGM-SDG modus operandi is working. The whole-of-society approach and government buy-in and financial support are the pillars that hold this practice together and enforce its scalability and replicability potential, in Malaysia and beyond.

The United Nations in Malaysia renews its commitment to build on the results achieved together and deepen its engagement and partnership with SDG champions across Malaysia. The APPGM-SDG is undeniably a key partner and the practices and successes this report highlights are a clear testimony to both its relevance and sustainability.
This is the 2021 Annual report which documents the activities of the APPGM-SDG between the months of January and December 2021. The secretariat team has prepared a comprehensive report of all the activities carried out during this period. The overview article provides an introduction to the report and the content of the 2021 annual report.

The APPGM-SDG has made it a policy to place the report in Parliament with the permission of the Speaker. This was done in the case of the 2020 Annual Report which is also available on the parliament website [2].

Partnership with parliamentarians is a unique opportunity to link grassroots concerns with national policy concerns. Our methodology of three-days field visits and interaction with local people provides us with a rounded approach to local issues and concerns. Over the past two years as we work at the ground level we responded that there are unresolved local issues and concerns. One could even say we have a list of ten to fifteen such concerns relating to economic, social and environmental concerns which can also have relevance to good governance and human rights.

In this theme of leaving no one behind the APPGM-SDG model provides parliamentarians are direct hands-on approach to resolving local concerns. This decentralised approach is urgently needed. On behalf of the APPGM-SDG secretariat, I take this opportunity to thank the government officials, all parliamentarians, all academics, CSO and solution providers including parliamentary constituency staff.

A special word of thanks to the APPGM-SDG Committee for your labour of love especially the Chair and deputy. I am indebted to the core staff of APPGM-SDG namely Mrs Rahmah Othman, Mr Anthony Tan Kee Huat, Mr James Ryan Raj, Ms Zoel Ng and Dr Teo Sue Ann and core members of the Malaysian CSO- SDG alliance namely Dr Lin Mui Kiang, Ms. Lavanya Rama Iyer, Mr Alizan Mahadi, Prof Dato’ Dr Rasilah Ramli, Assoc Prof Dr Zainal Abidin, Ms Omna Sreeni Ong and Mr Kon Onn Sein for your valuable advice and input for the success of the programme.

PART 1

MPs & SDGs

2021
APPGM-SDG COMMITTEE

YB Dato Sri Hajah Rohani Binti Abdul Karim
Chairperson
P201 | MP of Batang Lupar
PBB

YB Puan Maria Chin Binti Abdullah
Deputy Chairperson
P105 | MP of Petaling Jaya

30 LOCATIONS & 2021
SHORT QUOTES FROM MPs

“...Pengklokasian Sustainable Development goals benar-benar telah menterjemahkan konsep leave no one behind kerana membantu pusat khidmat rakyat Parlimen Kubang Pasu dalam membuat pemetaan isu-isu lokal dan mencadangkan solusi kepada setiap isu berbangkit yang mensasarkan golongan B40 untuk keluar daripada kempompong kemiskinan dan meningkatkan kualiti kehidupan mereka...”

YB Dato’ Wira Haji Amiruddin Bin Haji Hamzah
P006 | Kubang Pasu, Kedah

“..Programme SDG telah memberikan impak yang sangat besar kepada masyarakat pedalaman di kawasan parlimen Hulu Rajang, rakyat begitu teruja dengan aktiviti masakan dan membaiki telefon bimbit yang pertama kali dijalankan dan memberi kesan yang sangat mendalam kepada setiap peserta, saya berharap programme ini akan diteruskan dan diperluaskan ke seluruh negara...”

Terima Kasih APPGM-SDG!!!

YB Datuk Wilson Ugak Anak Kumbong
P216 | Hulu Rajang, Sarawak
“Saya menyokong usaha dan peranan untuk membawa perubahan kepada pembangunan sosial terutama di kawasan luar bandar. Hal ini dapat membantu memperkasa matlamat pembangunan mampan (SDG) yang lebih komprehensif di setiap peringkat.”

YB Datuk Seri Panglima Abdul Azeez Bin Abdul Rahim
P016 | Baling, Kedah

“...Penubuhan APPGM-SDG adalah tepat dan merupakan platform terbaik untuk MP mengajukan segala masalah yang dialami oleh rakyat Daerah Papar seperti petani, penoreh getah dan nelayan pantai dapat di serahkan untuk pengetahuan kerajaan supaya solusi dan dana segera dapat disediakan...”

P175 PAPAR BOLEH APPGM-SDG JUGA BOLEH...”

YB Tuan Haji Ahmad Bin Hassan
P175 | Papar, Sabah
Usaha-usaha untuk membumikan SDG melibatkan warga Permatang Pauh secara langsung dalam projek yang amat hampir dengan mereka. Untuk memastikan perubahan yang benar-benar lestari, pemberdayaan akar umbi dan pelaksanaan inisiatif yang mengambil kira keunikan karakter dan cabaran yang dihadapi penduduk sesebuah kawasan haruslah dinormalisasi.

YB Puan Nurul Izzah Binti Anwar
P044 | Permatang Pauh, Pulau Pinang

“Penglokasian SDG telah mendedahkan dan membuka potensi baharu kepada penggiat industri mikro, kecil, sederhana terutamanya di kawasan pedalaman di Pendang, dengan bimbingan dan dorongan khusus berkenaan perniagaan akhirnya membuka lebih banyak peluang kepada penduduk setempat”

YB Datuk Haji Awang Bin Hashim
P011 | Pendang, Kedah
“...Lokasi-lokasi terpilih dalam parlimen Tumpat yang meliputi kawasan kepulauan (proyek sabut kelapa cocopeat), pesisir pantai geting (kiosk produk ikonik Tumpat) dan pinggir bandar (agroternak) sangat menepati objektif projek-proyek yang dijalankan oleh SDG bagi menaiktaraf kehidupan sebahagian penduduk Tumpat, khususnya penduduk luar bandar.

Manakala penglibatan Universiti Malaysia Kelantan (UMK) sebagai pembimbing usahawan online dalam pemasaran digital dan pengurusan kewangan akan melahirkan usahawan yang lebih berdaya saing...”

Terima kasih SDG !

YB Dato' Haji Che Abdullah Bin Mat Nawi
P019 | Tumpat, Kelantan

"I am very happy to note that the various projects introduced in my Constituency had indeed achieved the purposes they were intended to i.e. to elevate poverty and to assist the locals in improving their lot economically. For example, in the project Fertigation Chili at Long Beyak the Community who participated can now have a steady fixed income of at least RM2500.00 a month. And for those involved in the fertigation chilli project (600 chilli trees) can harvest approximately RM30k per season. This is indeed a success story that must be shared. I wish to thank the APPGM-SDG for their effort to make these projects a reality."

YB Tuan Baru Bian
P214 | Selangau, Sarawak
“...Real and meaningful change can only happen through the people's direct action. APPGM-SDG provides the tools and knowledge for effective change through collaborative efforts. Although some initiatives have not lived up to expectations, important lessons have been taken throughout the process. Let's push forward with greater determination!”

YB Tuan Wong Tack
P089 | Bentong, Pahang

“...Saya percaya bahawa penglokasian matlamat pembangunan mampan (SDG) adalah satu memperkasaan ekonomi yang menjamin kebajikan setiap keluarga, memastikan akses pembelajaran bagi generasi yang bakal menjadi pemakai kemajuan negara, dan juga membuka ruang kerjasama antara agensi bagi memastikan masalah tempatan dapat diselesaikan secara kolektif dan efektif....”

YB Puan Maria Chin Binti Abdullah
P105 | Petaling Jaya, Selangor
“...Programme-programme SDG yang telah dilaksanakan amat memberi kesan besar kepada penduduk luar bandar khususnya golongan B40 yang sentiasa mengharapkan panduan serta bimbingan untuk berjaya dalam pelbagai bidang dan berdaya saing.

Justeru programme-programme SDG ini perlu diteruskan dalam erti kata lain menekankan keutamaan pada “Strategic Continous Engagement dan Community Empowerment... Terima kasih APPGM-SDG...”

YB Dato’ Sri Hajah Nancy Binti Shukri
P200 | Batang Sadong, Sarawak

“...Ingin mengucapkan setinggi-tinggi penghargaan Kepada APPGM-SDG yang telah memilih kawasan Parlimen Batu Kawan untuk usaha-usaha dan inisiatif mendidik masyarakat Batu Kawan dan membuka persepsi dan pandangan betapa penting kita menghormati Alam sekitar, memastikan kemaslahatan ekonomi & hak-hak rakyat ditegakkan. Usaha ni untuk pastikan Malaysia menjurus kepada LEAVING NO ONE BEHIND programme APPGM-SDG sangat berjaya. Rakyat di kawasan batu kawan hari ini celik dan sedar mengenai kepentingan SDG bahawa Malaysia telah memberi komitmen untuk mencapai status negara memenuhi kesemua SDG sebelum tahun 2030...”

YB Puan Kasthuriraani A/P Patto
P046 | Batu Kawan, Pulau Pinang
“...It was fortunate to have an organisation such as APPGM visit my constituency in Ipoh Barat to survey and identify the needs of the urban poor which was in line with sustainable development goals of poverty eradication.

The survey and meet up have highlighted significant documented data on the social economic life of the poor related to ownership of land housing, income and healthcare.

This paved a way for a meaningful dialogue with the authorities ....”

“...Penglokalisasian SDG yang digerakkan oleh APPGM-SDG melalui programme di akar umbi terutamanya di Parlimen Batang Lupar, Sarawak merupakan satu pendekatan yang sangat bermanfaat. Masyarakat luar bandar lebih peka dan celik SDG selaras dengan usaha mencapai agenda Pembangunan Lestari menjelang 2030. Agenda perubahan ini adalah amat penting dalam memastikan kepentingan semua lapisan masyarakat dijaga dan pembangunan yang lebih menyeluruh...”

YB Datuk Christina Liew Chin Jin
P190 | Tawau, Sabah

YB Dato Sri Hajah Rohani Binti Abdul Karim
P201 | Batang Lupar, Sarawak
“Programme SDG telah memberikan impak yang memberangsangkan kepada ibu tunggal dan remaja B40 dikawasan Parlimen Selayang. Aktiviti membuat kek dan roti bagi ibu tunggal serta kelas bimbingan bagi remaja keciciran persekolahan telah berjaya. Dengan pembukaan café dari golongan ibu tunggal (Bites n’Beans Café). Kelas bimbingan telah berjaya membawa remaja memperolehi pekerjaan serta beberapa pelajar telah pun menyambung semula ke sekolah teknikal. Saya berharap programme ini dapat di sebarkan keseluruh kawasan agar masyarakat dapat meningkatkan daya saing yang positif...terima kasih kepada APPGM-SDG....”

“SDG perlu diterjemahkan dalam bentuk programme-programme peringkat tempatan. Di Indera Mahkota, antara programme yang amat bermanfaat ialah menyediakan peluang pekerjaan di sebuah spa kereta untuk bekas banduan dan bekas penagih.”

“Localising SDGs is important. It underscores our commitment towards inclusivity. The old approach of “one size fits all” is no longer relevant in this day and age, as we must employ local solutions to local problems...”
"...Dalam kita melaksanakan matlamat pembangunan mampan, marilah kita juga berusaha untuk memastikan bahawa setiap rakyat keluarga malaysia mempunyai peluang yang sama untuk menikmati kemakmuran dan kekayaan negara…."

YB Datuk Arthur Joseph Kurup
P182 | Pensiangan, Sabah

"...Kesejahteraan komuniti nadi penggerak yang menatijahkan kemakmuran dalam negara, sudah pasti penglokasan matlamat pembangunan lestari penyumbang kestabilan tersebut. Syabas APPGM-SDG dalam usaha ini!!...."

YB Tuan Ahmad Tarmizi Bin Sulaiman
P013 | Sik, Kedah

"Pembangunan mampan penentu masa depan semua. Pelihara dan kekalanlah demi generasi masa hadapan"

YB Dato’ Sri Dr. Wee Jeck Seng
P165 | Tanjung Piai, Johor

"...Kebahagiaan hidup bergantung kepada kualiti hidup yang kita rasai, sudah tentu ia faktor kuat reformasi dalam perjalanan untuk capai kebahagian rakyat di Lembah Pantai...

YB Tuan Ahmad Fahmi Bin Mohamed Fadzil
P121 | Lembah Pantai, W.P KL

"...Usaha penglokasian SDG adalah sangat penting untuk memastikan setiap lapisan masyarakat dapat diperkasarkan supaya mereka sendiri menjadi pemangkin untuk komuniti mereka sendiri dalam menyelesaikan masalah yang dihadapi...."

YB Dr. Kelvin Yii Lee Wuen
P195 | Bandar Kuching, Sarawak
“...Usahawan terbilang pemangkin ekonomi global...”

YB Datuk Zakaria Bin Mohd. Edris
P184 | Libaran, Sabah

“...My dream is to make the world a better place...”

YB Puan Isnaraissah Munirah Bt Majilis
P169 | Kota Belud, Sabah

“...The SDG frameworks made by the UN is to ensure that we can create a more sustainable nation without having to worry comprising the nation's prosperity...”

YB Tuan Syed Saddiq Bin Syed Abdul Rahman
P146 | Muar, Johor

“...APPGM-SDG telah berjaya memberikan harapan dan lantera penerang masa depan buat warga Simpang Renggam yang ingin melakukan perubahan dalam hidup mereka...”

YB Dr. Maszlee Bin Malik
P151 | Simpang Renggam, Johor

“...Membantu rakyat tanpa mengira pegangan ideologi masing-masing adalah keutamaan kepada pencinta demokrasi dan kebebasan rakyat jelata...”

YB Datuk Wira Haji Mohd. Anuar Mohd. Tahir
P088 | Temerloh, Pahang

“...Penglokasian SDG banyak membantu dan menatijahkan kesan baik dalam aspek sosial dan ekonomi komuniti. Sekaligus ia memberi peluang besar komuniti dalam memakmurkan bumi kurniaan ilahi...”

YB Tuan Ahmad Fadhli Bin Shaari
P022 | Pasir Mas, Kelantan
2021 is the second year for the APPGM-SDG during which time we consolidated the work of localising SDGs with the Member of Parliament playing a direct role as local champions complemented by a very active secretariat team of CSO activists and staff team.

While we saw the expansion of the work in 2021, however, we experienced challenges in the delivery at the grassroots due to the COVID pandemic and the lockdown. The online communication through zoom as well as the resilient efforts of local people has enabled the team to complete its commitments.

In the final analysis, we recognize that a 12-month window for delivery is extremely challenging. We have managed to complete the deliverable over a delay period of 4 to 6 months. In ensuring speedy delivery we did not compromise on the quality and the deliverable. The delays have also enabled us to accept the ground realities in a post covid environment.

Five key trends can be identified in 2021 and the secretariat team members further expand these in their write-ups.

* Although the cumulative number is 91, active solution providers in 2021 is 78 organisations.

**TREND 1**

**WE EXPANDED OUTREACH: PARLIAMENTARY CONSTITUENCIES & SOLUTION PROJECTS**

We expanded our outreach from 10 parliamentary constituencies in 2020 to reach out to another 20 new locations making the total 30 parliamentary constituencies by the end of 2021. It is significant to note that out of the 30 MPs, 13 are from government parties and 17 are from opposition parties.

APPGM-SDG is bipartisan and a good collective effort in addressing local concerns from a global mandate of SDGs which is a socio-economic and environment agenda which is politically neutral agenda in ensuring no one is left behind.

We managed to undertake all the mapping exercises and identify the local priorities as well as determine all the solution projects.

The article by Dr. Teo Sue Ann on research methodology (page 30) provides details on the mapping exercise and local priority. There is a description of the methodology and the findings leading towards determining both solution projects as well as identifying policy concerns through the situational analysis exercise.

This is further explained by Mr. James Ryan Raj who describes in detail the micro SDG solution projects undertaken at the grassroots (page 37). 2021 saw the approvals of 87 local solution projects.

These are micro but locally identified as local priorities. While they have a small budget allocation however our monitoring and evaluation is indicating high impact levels.
Prof. Dato’ Dr. Rasilah Ramli and her team of academics including members of the PSSM devoted time to review and evaluate the 2020 solution projects and concluded on its performance.

Dr. Lin Mui Kiang of PROHAM played a role in working with the secretariat team in reviewing solution projects for approval from the APPGM-SDG committee (see page 40).

**TREND 2**

**WE ARTICULATED POLICY CONCERNS FROM A GROUNDED RESEARCH METHODOLOGY**

There is a detailed description of the eleven policy concerns identified in 2020 and 2021 field studies based on the policy research analysis undertaken by Mr. Alizan Mahadi of ISIS Malaysia. These are the eleven thematic issues (Table 2). This policy analysis is undertaken from a grounded research methodology that captures the voices from ground realities into policy advocacy (see pages 33 - 36).

In our articulation of local concerns, we sought to keep two or three constantly in the forefront. The first is ensuring no one is left behind and the second is on gender-related concerns through our work. We had engaged Ms. Omna Sreeni Ong who provided input and support for our local mapping, solution projects as well as policy advocacy.

**TREND 3**

**WE DEEPPENED THE ENGAGEMENT WITH MULTI STAKEHOLDERS**

Engagement could be seen at six different levels including national, local and global.

**Parliamentarians:** The engagement was possible through the APPGM-SDG committee as well as field visits and conversations with members of parliament including the Speaker of the house and parliamentary staff. There is a full listing of all the MPs included (pages 10 & 11) including their quotes (pages 14 - 24).

**Government:** APPGM-SDG was active in its conversation with the Minister and staff of the Economic Planning Unit of the Prime Minister’s Department. The preparation of the Voluntary National Review (VNR) in the early months of 2021 was a transparent and engaging process. Throughout 2021 we provided regular updates of the work to the EPU.

For a second year, we managed to secure a grant from the Ministry of Finance (MoF). In 2020 we secure RM1.6 million and in 2021 we secured RM5 million.

**Local communities:** The field visits for local mapping and undertaking SDG Solution projects at the grassroots enabled the APPGM-SDG to have a direct ‘hands-on’ exposure to ground realities.

**Solution providers:** One of our major discoveries at the grassroots is local partners. By 2021 we had identified 78 such local providers. This is discussed in detail by Mr. James Ryan Raj (page 38).
The monthly monitoring meetings have strengthened undertaking and expectations.

**Young people:** We recognise the future of SDGs is in the hands of young people. Ms Zoel Ng (page 42) provides details on the youth engagement programmes in 2021.

**Global community:** The High-level Political Forum (HLPF) held in July 2021 provided many opportunities especially when all the sessions were online. There is a detailed description of all the preparatory meetings and side events we organised and participated, please (see pages 48 & 49).

**TREND 4 WE STRUGGLED IN DELIVERING CAPACITY BUILDING PROGRAMMES**

The area in which the APPGM-SDG team struggled was in undertaking capacity building for the civil servants at the district level. We found it difficult to recruit civil servants from the district level who could be federal or staff officials.

Among the reasons for these include the restrictions posed during the COVID pandemic for face-to-face training. However, a more serious concern is the difficulty of securing approval for undertaking the training as there were multiple layers of decision-making at the Federal, State and Local governments.

However, in 2021 Associate Professor Dr. Zainal Abidin Sanusi prepared a good training module and training materials in Bahasa Malaysia. He and his team were able to undertake one-day training sessions at the district level in 2021 (see page 43). We will try in 2022 to improve on this area.

In addition, the APPGM-SDG secretariat undertook local multi-stakeholder training funded by UNDP entitled Building Inclusive Communities in three districts namely Petaling Jaya, Selayang and Kuala Selangor (see pages 44 & 45).

**TREND 5 WE STRENGTHENED THE SECRETARIAT**

We grew our secretariat team from two full-time staff to 10 staff in 2021(see page 96). However, a major role was also played by members of the Malaysian CSO-SDG Alliance in various capacities to strengthen the research and delivery of the activities of the APPGM-SDG (see page 97).

Financial accountability and decision-making procedures are well described by Mr. Anthony Tan Kee Huat in his write-up (pages 51 & 52). We have multiple levels of decision-making which provide effective checks and balances to the management of the resources. Monthly financial and activity reports are submitted to MoF, EPU and Parliament for their review.

The participation of the MPs servicing in the APPGM-SDG committee is very encouraging (see page 9). The Chair, YB Dato Sri Hajah Rohani Abdul Karim and the deputy YB Maria Chin Abdullah have served actively at national and global levels in the promotion of SDGs.
RESEARCH METHODOLOGY FOR LOCALISING SDGs

The research methods for localising the SDG by the APPGM-SDG comprise four main scopes of work – Issue mapping, prioritisation of issues, situational analysis and solutions identifications. Adhering to the SDG principle of “Leaving No One Behind”, these methods aim to be inclusive and require participation from all stakeholders.

The stakeholders include the Members of Parliament for the respective constituencies, the state assemblypersons, grassroots communities, especially those who are marginalised and living in poverty, local NGOs, the state and district government agencies. The localisation of the SDGs begins with mapping social, economic, and environmental issues in each parliamentary constituency.

In this process, we invited the stakeholders to give their opinions based on their experiences and expertise about the issues on three main themes – social, economic and environment. The following discusses each scope of the research methods in detail. We also present the themes that emerged from our findings across 20 constituencies.

Diagram 2: An Overview of the localisation of the SDGs by the APPGM-SDG
ISSUE MAPPING

To begin, we obtained a profile about the respective parliamentary constituency from the MP. We invite the MP to discuss the respective constituency’s social, economic and environmental issues. The profiling of the constituencies provided context for the issues before we proceeded to the three days of fieldwork in the parliamentary constituency. It provided an outline for planning the three-days fieldwork in the parliamentary constituency.

The three-day fieldwork is when we obtain empirical knowledge about the social, economic and environmental issues from the local communities, the state and district government agencies. We employed discussions, focus group discussions and interviews with the communities. The discussion revolved around the pressing social, economic and environmental issues they faced in their different localities. On the third day, we invited officers of the state and district levels of government agencies to discuss the social, economic and environmental issues.

The issue mapping process encountered setbacks as it took place during the midst of the COVID-19 pandemic. For instance, many discussions with the stakeholders, such as the MPs, communities and government agencies, had to be conducted online. Moreover, the necessary movement restrictions hindered us from conducting further research on the ground after the three-day fieldwork. Despite hindrances imposed by the COVID-19 pandemic, we have managed to identify significant issues across the 20 parliamentary constituencies. Notably, our findings are by no means exhaustive. Nonetheless, they are significant in demonstrating some of the crucial issues to be addressed. The following is a list of dates for the field visits of the 20 parliamentary constituencies.

Thematic Policies

Policy narratives on the linkages to explain how thematic policies (independent variable) affects the outcomes of the thematic issues (dependent variable)

Outcome of thematic issues

Prioritisation of Issues

The next phase of research is the prioritisation of issues. The MP is invited for a meeting to discuss the list of issues and prioritise the issues deemed necessary for further research in the remaining year.

After collecting the prioritised issues across the twenty parliamentary constituencies, we categorised the prioritised issues into themes. The followings are the eleven themes that the researchers have identified for 2021.

Situational Analysis

Based on the identified thematic issues, the APPGM-SDG researchers continued with situational analysis to identify the plausible factors for the eleven thematic issues. The situational analysis contains results of further research into the context, thematic policies/mechanisms and explanation of the causal factors for the thematic issues.

It is aimed to analyse how and why the issues are occurring. We also compare the thematic issues across the twenty constituencies. The following diagram demonstrates the framework for the analysis.

Diagram 3: The Situational Analysis of the APPGM-SDG research (2021)
Eleven thematic issues in Twenty Parliamentary Constituencies and the related SDGs (2021)

<td>SDG2, SDG3, SDG4, SDG11, SDG16, and SDG17</td>
</tr>
<tr>
<td></td>
<td>The concerns of youth’s involvement in drugs are ubiquitous across the constituencies. There is an indication that the issue is related to unemployment among youths. On the one hand, many participants highlighted high unemployment among youth. Those with a diploma or a degree find it difficult to match the knowledge they have learned with the industry. On the other, many also indicated a high probability of drop-outs among youth in their localities. Although some of these youth are interested in specific skills, no skill-training programmes are available for them.</td>
<td></td>

<td>SDG1, SDG2, SDG3, SDG8, SDG9, SDG10, SDG12, SDG16, and SDG17</td>
</tr>
<tr>
<td></td>
<td>• The development of infrastructures around agricultural land has disrupted the natural irrigation of water on the ground. Poor irrigation maintenance caused erosion of irrigation banks, further impeding the water flow to the rice fields. As a result, the extreme conditions of flash floods during the rainy season or drought during the dry season.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Due to the price hikes for fertilisers and pesticides, farmers suffered from income loss. Despite the lack of marketing strategies for their crops, some believed they were exploited by the middle party to sell their crops which caused them further income losses. Some fruit and vegetable farming communities feel they are not incentivised despite being responsible for 90% of production. Some paddy farmers highlighted the issues of delayed distribution of paddy seedlings by NAFAS further implicated their yields.</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>• Fishers raised concerns about declining fish stock and fish catch. This has led to many unsustainable fishing techniques, such as trawling, which degraded the marine ecosystem. Sand dredging by at least 30 vessels along Malacca Straits caused severe coastal erosions. Sediments at the river mouth affected fishermen’s passageways and posed a danger. Fishers also alleged the lack of maritime enforcement of illegal trawlers.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
### 3. Welfare and Rights of Single Mothers and Gender Mainstreaming

- Most single mothers met have low education attainment—many are interested and involved in small businesses. However, few have sufficient funds and skills for venturing into businesses.
- The lack of governmental support further hinders some from working as formal employees in the private sector. As a result, many single mothers work for low-paying and temporary work for flexible working hours to juggle childcare and household chores. Moreover, the support that single mothers need is not only monetary, childcare and materials; many single mothers are living in stressful conditions. Hence, many of them are also in need of mental healthcare.
- Furthermore, single mothers are not only widows. They are often not entitled to any government welfare support and aid. Unwed mothers with “stateless” children struggled as their children were not entitled to attend government schools.

<td>SDG1, SDG2, SDG3, SDG5, SDG8, SDG10, SDG16, and SDG17</td>
</tr>
</tbody>
</table>

### 4. Poverty and Imbalanced Development (Infrastructure, including Digital Connectivity)

Rural communities have low access to healthcare, lack of clean water and low internet access. The poor conditions of the road further impede the mobilities of the communities. Due to the poverty conditions, the communities living in rural areas often do not have emergency funds.

<table>

<td>SDG7, SDG9, SDG11, SDG13, SDG16, and SDG17</td>
</tr>
</tbody>
</table>

### 5. Environmental Governance (Pollution, Human-wildlife conflict, oceans and river governance and Waste Management)

- Lack of innovative methods to curb pollution by the agri-food waste, i.e. open-burning of paddy husks. The open burning caused air pollution.
- Human and wildlife conflict further causes stress to farmers due to the damaged crops, and the villagers often have monkeys break into their houses.
- Communities living in the estate's lack of clean water supply.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

### 6. Social Protection, Social Safety and Welfare

- Overly reliant on the government and politicians' materials and food hand-outs. Lack of skill training programmes and innovative engagements with the B40 groups that could assist their socio-economic conditions for the long-term.
- Many B40 groups (which include those belonging to the Chinese and Indian communities, farmers, senior citizens, people with disabilities and single mothers) highlighted the difficulties in applying for government welfare assistance. Some claimed the political intervention in welfare aid delivery to be an effective way for them to get more materials and food. Nonetheless, some also

</tr>
</tbody>
</table>
Job facilitation, financial aid and cooperation among agencies need a sound data system to support them. The lack of a central data system has cost many resources, talents and information mismatch.

7. **Land tenure, security and settlements**

- Issues revolving around land tenure are diverse. Some communities could not agree with the landowners and remained on privately-owned land. Their houses are often in run-down conditions with no clean water and electric supplies.
- Some communities were relocated to new locations with the agreement of land ownership. However, the agreement was not fulfilled. As a result, they remained as "squatters" living on the land they were promised to own. As they moved to the new settlements, the communities found difficulties in obtaining job employment. The poor living conditions often correlate to other social problems such as high drop-out rates among school children, drugs and unemployment.

<td>SDG1, SDG10, SDG16, and SDG17</td>
</tr>
</tbody>
</table>

8. **Disaster management (Floods) and Climate Change**

- Flash floods due to the negligence of the development plan in the area are affecting the communities living on the city's outskirts. Villagers claimed flash floods become more frequent with the new buildings surrounding their villages.
- Flash floods have also become one of the leading causes for some farmers, as floods damage their crops.

</thead>
<tbody>
<tr>
<td>Kubang Pasu, Ipoh Barat, Batu Kawan</td>
<td>SDG9, SDG10, SDG11, SDG13, SDG16, and SDG17</td>
</tr>
</tbody>
</table>

9. **Rights of Refugees, Migrants and Stateless**

- "Stateless" children, due to the unregistered marriage of their parents, are deprived of basic citizenship rights for education and employment. Due to the lack of formal citizenship documents (such as identification cards), they cannot obtain any form of licenses and accounts, further impeding their social mobility. Although they were born in Malaysia, "stateless" individuals are not entitled to social protection and public healthcare. They tend to be susceptible to exploitation by employers as informal workers.
- Refugees in Malaysia are denied basic human rights for education and employment. Their mobilities are curtailed. They are hindered from any means of livelihood. As a result, many of them work as informal workers, susceptible to exploitation and discrimination from employers. Domestic violence is rampant with the victims have no venue to seek help.

</tbody>
</table>
10. **Sustainable Tourism**

- There is a tangible heritage site in Kuala Selangor with potential for the tourism industry, which is unexplored. The lack of maintenance of the place is diminishing its historical value.

- The necessary lockdowns due to the COVID-19 pandemic have endangered many local tourism industries, such as homestays. As these local tourism industries are constituted primarily of local small business owners, many of them struggle to continue their businesses.

- Due to the lack of marketing strategies and publicity, many local tourism products remain undiscovered.

| Kuala Selangor, Indera Mahkota, Batang Lupar | SDG9, SDG11, SDG16, and SDG17 |

11. **Affordable Housing & Urban Poverty**

- Poor maintenance of the PPR flats has led to several other issues such as cleanliness, upkeep of the facilities and safety of the residents. The primary reason is that the residents are often the B40 groups, and they could not pay the maintenance fees.

- Congestion is often an issue for PPR residents. Some units have more than two households, including the second and third generations. Outside the units, the lack of public spaces, such as spaces for recreation for youths and senior citizens and parking spaces for the residents, have caused mental stress.

GRASSROOTS PARTICIPATION THROUGH SOLUTION PROJECTS

SDG Micro Solution Projects as a means for Grassroots Mobilisation

The APPGM-SDG has embarked on a mammoth task to mobilise grassroots communities for sustainable impact and change by engaging local solution providers to undertake micro SDG projects. From the year 2020 to 2021, we approved 121 solution projects to be implemented by the local solution providers in 30 Parliamentary Constituencies as seen in Table 3.

Table 3: Number of Projects (2020 & 2021)

</tbody>
</table>

The APPGM-SDG projects are designed to address local issues and challenges that were identified during the issue-mapping process at the parliamentary constituencies. Discussions were held with the Members of the Parliament's office, government agencies, NGOs, community leaders, and the members of the community. This is a bottom-up and multi-stakeholders approach to better understand grassroots concerns.

Due to delays caused by Covid-19, all 87 micro solution projects were completed by September 2022.

Solution Providers as Agent of Change at The Grassroots Level

The 87 projects were undertaken by 78 solution providers. These projects focus on three main themes, namely Economy, Social, and Environment.
The solution providers play a key role in localising SDGs at the ground level with the Members of Parliament at the respective constituencies. 51% or 40 of the local partners are society-based organisations and the other largest partners are enterprise based with 24% or 19 organisations. These enterprises have started with a mission to deliver social development objectives to marginalised communities with a focus eventually to become social enterprises. 11 Local universities or 14% of the total 78 solutions providers have initiated live labs in the local communities. Foundations (4%) with 3 organisations, Cooperatives (3%) with 2 organisations, and 3 Social Enterprises (4%) respectively have joined hands with APPGM-SDG as our local champions in localising SDGs at the grassroots.

They are the local champions in delivering the SDG mandate, undertaking projects to address local issues and needs, ensuring that marginalised groups are included in the project outreach, to ensure leaving no one behind, coaching and mentoring local communities, and handholding to build trust, confidence and mindset change to create ownership and partnership in addressing local issues.

**Rigorous Monitoring and Evaluation – Project Due Diligence to Measure Impact and Sustainability**

The solution providers had approximately 2 – 5 months with an allocation of RM20,000 to a maximum of RM40,000 to conduct SDG projects. Our projects have 100% success in conducting projects on the ground. This is because the APPGM-SDG has a system of monthly monitoring – the solution providers are obligated to attend a meeting to discuss the progress of their respective projects.

The APPGM-SDG also takes the opportunity to provide joint project management support. The monthly monitoring meeting is also a session for capacity building. The APPGM-SDG solution project team would provide guidance and motivate the solution providers to conduct a successful solution project in the communities within a given timeline.
Therefore, besides ensuring the completion of these projects, we also measure their impacts on improving income and behaviour, increasing awareness of project ownership, social cohesion, social mobility, and project sustainability. The solution project team also visits the solution providers on-site of the projects to meet the beneficiaries and ensure active participation in the projects.

**Lesson on Best Practices**

Despite our success in the solution project implementation, the APPGM-SDG solution project team encountered several challenges, especially with the pandemic of COVID-19 and the subsequent lockdown, the solution project providers were urged to keep safe and find alternatives and innovative approaches in conducting the projects with the local target groups.

With concerted efforts between the APPGM-SDG solution project team and the local solution providers, we managed to complete 60 to 70% of the projects within the calendar time, and extended time was given to the solution providers to achieve 100% on the project deliverables.

We are seeing active participation in localising SDG at the local level by the Members of Parliament with the solution partners and the local communities. These micro SDG projects have enabled the voices from the bottom of the pyramid to be brought up to the lawmakers. The projects have been a tool to build the capacity of the solution partners and the beneficiaries to take full ownership of community development.

In our intervention, we have noticed the role of women has been stronger in mobilising the communities for social change at the grassroots. The impact at the local level is phenomenal and this is because of our monitoring approach and handholding process that build trust and strong bonding with our partners and the beneficiaries. The efforts and achievements made in 2020 and 2021 have encouraged the solution team, the solution providers, local communities, and the MPs to beef up the efforts of localising SDGs. The APPGM-SDG aims to encourage more members of parliament to join the forces in mobilising grassroots communities for change by taking the whole-of-nation approach in ensuring leaving no one behind.
MONITORING & EVALUATION

The APPGM-SDG programme has 4 phases of implementation namely issue mapping, project design, solution implementation, monitoring, and impact assessment which will complement the final report writing. Monitoring and Evaluation (M&E) is embedded within Phase 3 of APPGM-SDG to evaluate the impact of the programme on the organisation and the beneficiaries.

The theme Localising SDGs with a Gender Focus has been developed along with a Capacity Building programmes on Monitoring and Evaluation (MEG-SDG), a project initiated by the Institute of Malaysian and International Studies (IKMAS), University Kebangsaan Malaysia (UKM) and funded by the Malaysian National Commission for UNESCO (SKUM). The Evaluation team was led by Prof. Dato’ Dr. Rashila Ramli and Prof. Dr. Sity Bt. Daud.

The evaluation was conducted on 34 projects undertaken in 2020 in 10 Parliamentary constituencies. The Mid-Term project evaluation exercise was conducted from October 2020 to February 2021.

The objectives of the MEG project are to develop the MEG Module with a gender focus, to conduct capacity-building programmes for evaluators, and to evaluate the Solution Projects as the Mid-Term Review (MTR) of the Solution Projects. The main outputs from the projects are the Monitoring & Evaluation of SDG with a Gender Focus (MEG-SDG) Module. The project evaluation exercise was conducted by 18 MEG-SDG Evaluators from various disciplinary, universities, and organisations as in Table 4.

Table 4 – Evaluators and Affiliation

<table>
<thead>
<tr>
<th>Evaluators</th>
<th>Education</th>
<th>Affiliation</th>
</tr>
</thead>
<tbody>
<tr>
<td>18 PHD</td>
<td>Master</td>
<td>University</td>
</tr>
<tr>
<td>11 College</td>
<td>Institute</td>
<td>Consultancy</td>
</tr>
</tbody>
</table>

Table 4 provides an overview of 18 evaluators of which, 11 are with PHDs (61%) and 7 are Master's holders (39%). 14 evaluators are affiliated with universities (78%), and the remaining 4 evaluators, 1 is from college (5.6%), 2 evaluators from an institute (11%) and 1 evaluator are from a consultancy firm (5.6%).

The evaluators underwent an intensive training programme. They began by studying the proposals and the monthly reports written by Solutions Partners. Evaluators delve into the four phases of Monitoring and Evaluation (M&E): Design, Planning, Implementation, and Impacts. By adding a gender lens and sensitivity based on substantive gender equality and gender justice, the findings provide an increased value to the Mid-Term Review Report. Furthermore, the evaluators were guided by the Valorisation of the evidence framework based on the availability, accessibility, and usability of activities.

The project evaluation method was based on the 4 key domains as described in diagram 5.
The Covid pandemic caused havoc in planning and implementation. All projects were supposed to be completed by December 2020. However, due to the declaration of the Movement Control Order (MCO), 28 projects had to be extended for an extra 5 months. Only 6 projects were completed. Cooperation between many stakeholders is needed to get things moving. It was important for all Solution Providers to know their stakeholders.

At the point of project evaluation, most projects reached 70% completion with 98% of the project meeting the original planning objectives and target group. Accessibility of the programme for most participants is not an issue. Challenges faced are Travel time to the location of the programme and Loss of income on the programme day.

Projects with more than 70% completion rate did achieve their outcomes. The major challenge is the issue of connectivity in rural areas such as Pensiangan and Jeli. Outcome Indicators: Jobs obtained by trainees that led towards a change in wellbeing. Sales of Mushrooms and Batik led to a change in the household income.
Gender Focus

- Gender is seen as a cross-cutting issue in all 4 Elements of MEG-SDG.
- For this first cohort, gender focus is only apparent in projects dealing with women's issues such as health, legal education, and cooking.
- The projects related to People have more gender considerations.
- Women are being viewed as Ketua Rumah (SP34), thus having decision-making capacity.
- Gender Equality Indicators: Proportion of women in committees, the proportion of women participants, disaggregated data.

YOUTH DEVELOPMENT IN SDG

The Malaysian Youth SDG Summit is an initiative by APPGM-SDG and the Malaysian CSO-SDG Alliance. This youth summit aims to provide a valuable platform to:-

- find new ways to mobilise, empower, and inspire young people to take action towards the Global Goals of localising SDGs; and
- enable young Malaysian SDG practitioners to meet with like-minded people and industry peers.

The first Malaysian Youth SDG Summit is on 6th November 2021 with the support of 30 youth-based organisations. The Summit was co-organised with the Regional Centre for Expertise Greater Kuala Lumpur (RCE GKL) and supported by the United Nations Resident Coordinator in Malaysia, Brunei, and Singapore, with over 900 youths from different countries registered for the events.

Besides youth SDG Summit, APPGM-SDG also actively participated in various conferences and programmes organised by our partners to raise awareness of SDG among youths.
SDG CAPACITY BUILDING PROGRAMME (IN COLLABORATION WITH SEJAHTERA CENTRE)

We have created a capacity-building module and SDG handbook in Bahasa Malaysia in collaboration with the Sejahtera Centre of the International Islamic University Malaysia (IIUM), headed by Assoc. Prof. Dr. Zainal Abidin Sanusi which consisted of four parts altogether:

- Part 1: Introduction to SDGs
- Part 2: Governance & Management of SDGs in Malaysia
- Part 3: Community Engagement for SDGs
- Part 4: SDG Case Studies

One entire session of the capacity-building programme in each parliamentary constituency lasted one day and included two-way communication, group work, discussions and presentations. The SDG handbook was used by the participants throughout the one-day session.

APPGM-SDG Capacity Building programmes were targeted at parliamentary constituencies with the following objectives:

- Enhancing the understanding of the government officers and community representatives at the district level on the SDGs and the National Development Planning Process (Rancangan Malaysia).

- Identifying the role and functions of stakeholders from the perspectives of SDGs that are integrated and comprehensive to overcome silos of federal, state, district and local government agencies in a way that fosters cooperation and collaboration among the stakeholders (government officers, MPs, and community representatives) and as well as to increase the level of involvement of communities in the planning and monitoring of local development plannings.

- Materialising the SDG 17 which is the partnership for the goals.

The team led by Assoc. Prof. Dr. Zainal Abidin Sanusi faced some difficulties in finishing the capacity-building programmes at constituencies. APPGM-SDG was only able to complete two training in 2021 due to a number of contributing issues, such as the Covid-19 situation, the Malaysian Movement Order (MCO) and difficulties in recruiting district-level civil servants. Table 5 provides the list of constituencies that have completed the Capacity Building programme in 2021.
Table 5:
List of parliamentary constituencies that have completed Capacity Building programme in 2021

<table>
<thead>
<tr>

<td>16 November 2021</td>
<td>27</td>
</tr>
</tbody>
</table>

Most participants agree that this programme has helped raise awareness in general. The APPGM-SDG will make an effort to complete the capacity-building programmes in the remaining constituencies using a different strategy and will attempt to gain more backing from the federal and state governments in so doing.

BUILDING INCLUSIVE COMMUNITY IN COLLABORATION WITH UNDP

APPGM-SDG was invited by UNDP to develop a training module on Building Inclusive Communities based on Sustainable Development Goals. The objective was in line with the inclusive development agenda as well as the Shared Prosperity Agenda which the government of Malaysia has adopted.

The training module was aimed to build the capacity of grassroots civil servants at the district level and local government agencies, as well as local community leaders. In developing this training module, we were asked to pilot test it in Petaling district (Urban), Gombak district (Semi-Urban) and Kuala Selangor (Rural).

In preparation for the module development and the pilot testing, we have set up a multistakeholder group that was represented by various government agencies like the Economic Planning Unit, Department of Statistics, INTAN, SEPADU, Ministry of Women & Family Development, Ministry of National Unity and others like Members of Parliament, NGO/CSO, and Academia to get feedback and support.

The course was built on the theme of “Leaving No One Behind” and it was about empowering individuals, families and communities who might feel they are unable to access the services of the government or voluntary organisations. The main task was to identify the groups who feel excluded and ensure they are included in the Malaysian Development Agenda.

The objective of this training was to mainstream social cohesion values such as diversity and inclusivity into day-to-day government and civil society activities.
The training has taken place in three pilot locations as per indicated in Table 6 which gives the breakdown of location, date, venue and number of participants.

Table 6: Building Inclusive Community Training programme Undertaken in Three Pilot Locations

<table>

</tr>
<tr>
<td>2.</td>
<td>Gombak District</td>
<td>6 &amp; 7 December 2021</td>
<td>Mercure Hotel</td>
<td>35</td>
</tr>
</tbody>
</table>

We have also gathered the pre and post-survey to review the understanding of the participants about the course and as well as to assess the effectiveness of the course. Follow-up meetings with the participants shall be undertaken in the three respective locations to evaluate the efforts and commitments made by them as well as the challenges that they have to face in building an inclusive community in their locality.

PREPARING THE VOLUNTARY NATIONAL REVIEW (VNR 2021)

We actively participated and contributed to providing input to the Economic Planning Unit (EPU) in the preparation of the 2021 Voluntary National Review Report by Malaysia to the High-Level Political Forum (HLPF) on SDGs in July 2021 at the United Nations.

In securing input from CSO/NGOs

We established five working groups on Poverty & Nutrition (WG1 on SDG 1 & 2; COVID 19 & Health Recovery (WG2 on SDG 3); Inclusive economic growth (WG 3 on SDG 8, 10; Sustainability & Climate Change (WG 4 SDG 12, 13) and Governance, social cohesion & partnership (WG5 SDG 16, 17).

The five working groups produced reports which came to about 154 pages in total. This can be regarded as a major contribution. It is the collective work of 62 people who participated in the working groups.
This summary report was written by Mr. Ahmad Afandi, a research officer with the APPGM-SDG based on the findings of the five working group reports which was submitted to EPU. He was asked to draw out the major themes pertaining to progress and achievements; gaps and challenges and finally the recommendations.[3]

Table 7 provides the list of VNR 2021 Preparation Meetings & Events related to it organized by EPU and APPGM-SDG Secretariat.

ASIA-PACIFIC FORUM ON SUSTAINABLE DEVELOPMENT

In 2021, APPGM-SDG has participated actively in the Asia Pacific Forum on Sustainable Development (APFSD) which is an annual preparatory meeting for the HLPF. The forum was held from March 23 - 26, 2021 in a hybrid mode with the theme of “Sustainable and Resilient Recovery From the Covid-19 Pandemic in Asia and the Pacific”.

During this APFSD, we hosted a side event on March 25th, 2021 with the Economy Planning Unit of Malaysia (EPU) as the primary sponsor, with the goal of sharing the APPGM-SDG experience as a model for localising the SDGs. It sought to show, in particular, the possibility of a multistakeholder process that involves participation from the political, governmental, CSOs, academia, and local community sectors. By adopting the model, the overall aim is for the SDGs to leave no one behind and catalyse a process for implementation at various levels including the local and national levels.

There were two-panel sessions of different and high calibre speakers that participated and contributed to this side event. Hon. Dato’ Sri Mustapa Mohamed gave his opening address and followed by the first panel which was on the topic of “Sharing of The APPGM-SDG Experience. This panel was moderated by Prof. Dato’ Dr. Rashila Ramli and the speakers were YB Dato Sri Rohani Abdul Karim (Chairman of APPGM-SDG), Prof. Datuk Dr. Denison Jayasooria (Head of Secretariat, APPGM-SDG), and Datuk Dr. Zunika Mohamed (Deputy Director General (Macro), EPU).

The second panel was on “The APPGM-SDG As A Model For SDGs Localisation” and consisted of YB Puan Maria Chin Abdullah (Deputy Chair of APPGM-SDG), Mr. Alizan Mahadi (ISIS Malaysia), Dr. Lin Mui Kiang (Head of Solutions, APPGM-SDG) and Ms. Firdaus Nisha (Service Provider for APPGM-SDG Solution Project (Tg. Piai). This panel was moderated successfully by Assoc. Prof. Dr. Zainal Abidin Sanusi.

It was a good opportunity indeed to showcase our APPGM-SDG experience to others, especially from other Asian countries that have participated in the side event.
The High-Level Political Forum (HLPF) was held online from July 6 - 15th, 2021 and served the purpose to examine the SDG progress through Voluntary National Review (VNRs) from the member states in achieving the SDGs. Malaysia was one of the 42 countries that presented the VNR for 2021. This was the second VNR submission from Malaysia as the first was in 2017.

Two Malaysian cities, Subang Jaya and Shah Alam also submitted Voluntary Local Reviews (VLR) at the side events of the HLPF as local governments.

The SDGs under review were SDG 1 (no poverty), SDG 2 (zero hunger), SDG 3 (good health & well-being), SDG 8 (decent work & economic growth), SDG 10 (reduced inequalities), SDG 12 (responsible consumption and production), SDG 13 (climate action), SDG 16 (peace, justice & strong institutions) and SDG 17 (partnerships & multi stakeholder engagement).

The peak of Malaysia’s participation at the HLPF 2021 was indeed during the presentation of our second VNR by Hon. Dato’ Sri Mustapa Mohamed (Minister in the Prime Minister’s Department (Economy) on July 15th, 2021 from 9.00 pm - 1.00 am (Malaysia Time) and followed by the reading of Malaysia CSOs Statement which was a collaborative statement by CSO in Malaysia and read by Mrs Nur Rahmah Othman and was favourably received by the Hon. Minister personally.

The CSO Statement was an initiative by the NGO Major Group and APRCEM where they invited the Malaysian CSO-SDG Alliance to be part of the process. It was a collaborative statement by a number of Malaysian civil society organisations, including the National Cancer Council, ARROW, Warisan Tink, and the ASEAN Youth organisation, to name a few. Mr Anthony Tan Kee Huat and Mrs Nur Rahmah Othman also contributed to the statement’s drafting. The coordination of the statement drafting was handled by Ms. Jyotsna Mohan from Asia Development Alliance (ADA).

Besides the VNR presentation, Malaysia also actively participated in a number of side events. There were five side events that Malaysia participated in:

The Malaysian CSO-SDG Alliance was invited by Action for Sustainable Development (Action4SD) to participate in the 2021 People's Scorecard process. This was a CSO assessment of the national delivery of the 2030 Agenda in Malaysia. This process provides a valuable platform for CSOs to provide their analysis at the national level and then compare the data across countries around the world.

The findings which were submitted to the National VNR process by APPGM-SDG Secretariat and Malaysian CSO-SDG Alliance were also useful in this People's Scorecard process. We hosted three additional thematic-targeted focus group discussions among indigenous people, people with disabilities and women/gender concerns.

We invited key CSO leaders to lead the five VNR working groups and the three focus groups to be part of the collective team in undertaking the scorecard assessment. Different individuals assisted in undertaking this scorecard exercise on the 17 SDGs and 10 categories which was a methodology introduced by Action4SD.

This National CSO Report on the 2021 People's Scorecard was undertaken as a collaborative effort by 15 core CSO leaders and academics in Malaysia. This report was divided into three parts with Chapter 1 providing a general overview of SDGs delivery in Malaysia.

Chapter 2 was on the summary of scored card assessment of the 17 SDGs. Chapter 3 was on the focus group discussion findings. This was Malaysian CSOs input to the global People's Scorecard process that was launched on 8 July 2021 at a side event at the High-Level Political Form (HLPF).

Our report was also made available online by the organiser and the final report was uploaded and made available through KSI Strategic Institute website. [4]

PARLIAMENTARIANS FOR GLOBAL GOALS (PFGG)

Parliamentarians for Global Goals (PfGG) functions to support parliamentarians and APPGM-SDGs in their advocacy for and implementation of the SDGs. Currently, over 100 parliamentarians are involved from 40 countries.

The APPGM-SDG Secretariat met Mrs. Kirsten Brosbol (Founder of the Parliamentarians for Global Goals) on April 29th, 2021, to discuss the possibilities of providing more support for integrating Malaysian parliamentarians with international discussions on the SDGs. We were connected to her through the Jeffrey Sachs Centre.

Since then, we have been invited and participated in a good number of events that PfGG has hosted.

- Third P4R Virtual Networking Days: The Role of Parliaments in SDG accountability (May 20th, 2021) - Dato Sri Hajah Rohani Abdul Karim was one of the speakers
- SDG Chairs Forum (November 11th, 2021)- Dato Sri Hajah Rohani Abdul Karim was one of the speakers
A NOTE ON FINANCE 2021

Finance can be defined as that extremely dull process within the general operations that is usually unnoticed as long as scheduled payments go through in a timely fashion.

However, in today’s fast-paced world which requires strict adherence to Governance, it is not just important to ensure that the right payee gets paid the correct amount, but it is equally as important to ensure that the recipient is qualified to receive such payment based on the criteria and deliverables set at the very beginning of the agreement.

Legal Status

The Malaysian CSO-SDG Alliance is Secretariat for the APPGM-SDG. At the same time, “Persatuan Promosi Matlamat Pembangunan Lestari” or PPMPL is the legal entity registered with the Registrar of Societies, assigned to represent the Malaysian CSO-SDG Alliance as the APPGM-SDG Secretariat.

All funds received from the Ministry of Finance for the APPGM-SDG are channelled through PPMPL. Likewise, all payments for expenses incurred related to the APPGM-SDG Secretariat activities are paid through the PPMPL account.

Payments Control

APPGM-SDG payment control is through the committee members of at least three of them to decide.

After the Site Visit and issue prioritisation, solution providers are invited to submit potential Solution Projects for consideration. All potential Solution Projects are presented by the Head of Solutions to the APPGM-SDG Committee for their approval. A minimum of 3 Committee members are required for this approval and validation quorum. Usually, 3 to 4 projects valued at RM30,000 to RM40,000 each (totalling RM120,000) are presented for each Parliamentary Constituency.

It has been the practice of the Committee not to reject any of the projects, but confirmation of some projects has been put on hold until further clarification and modifications had been made to strengthen these projects.

The information regarding all Committee approved projects will be handed over to the Finance Officer for preparation of the Project Agreement. This document is signed by the Head of Secretariat, Finance Officer and 2 representatives of the Solution Provider.

APPGM-SDG Finance Officer is to receive and process all claims and bills or invoices submitted for processing or any reimbursements or direct payments for goods and/or services received for the activities related to the APPGM-SDG Secretariat. It is also the responsibility of the APPGM-SDG Finance Officer to make the timely request for necessary funding from the Ministry of Finance so that APPGM-SDG Secretariat activities are running smoothly.
Once any claim or bill is received, the Finance Officer will first fill a physical payment voucher. Approval for payment is then sought from the Head of Secretariat (usually via a WhatsApp photograph of the voucher). Payment is made either in cash (from a petty cash float), the issuance of a cheque or via an entry into our banking interface. This year, the Payment Voucher started with the number V21/001 and ended with V21/487.

Recipients of cash payments have to sign on the voucher to acknowledge receipt. A cheque is only valid if it carries the signatures of at least two of three authorised signatories of the Bank Account. Meanwhile, the entry to our bank interface has to be approved by an assigned signatory to the Bank Account (who is not the Head of the Secretariat).

**Allocation for Solution Projects**

Twenty (20) new Parliamentary Constituencies were included in the APPGM-SDG in 2021. Each new Parliamentary Constituency for 2021 was allocated RM120,000 for the implementation of three to four Solution Projects in their locality. These projects are categorised as Phase 1 Projects for 2021.

Ten (10) original Parliamentary Constituencies from 2020 were allocated RM50,000 each for the continuation of selected projects begun in 2020. These projects are categorised as Phase 2 Solution Projects for 2021.

**Approval of Tranche Payments for Solution Projects**

The Solutions Team organised a series of monthly online Regional Review Meetings with Solution Providers to ensure that projects are moving according to plan and whether corrective action is necessary to be taken by the Solution Provider to get the project back on track.

Solution Providers are required to submit a monthly report (both narrative and financial) which is strictly scrutinised by the Solutions Team. Instruction for release of tranche payments to the Solution Providers is prepared by the Solutions Team and submitted for processing to the Finance Officer.

Due to the tight control of these meetings, reports and payments, the Solutions Team has managed to maintain a 100% success rate for the 87 Solution Projects approved for Phase 1 and Phase 2 in 2021.

**Monthly Financial Reports**

Monthly Financial Reports are prepared by the Finance Officer and circulated to the Office of Speaker of Parliament, Ministry of Finance and Economic Planning Unit. Reports for the previous monthly reporting period are usually prepared for circulation by the 4th of each following month.

**Audit**

TOR & Company continues to be the Auditors for the Persatuan Promosi Matlamat Pembangunan Lestari, the legal entity that executes the receiving and payment of funds on behalf of the APPGM-SDG Secretariat.

Urban Farming

- Solution Provider: Persatuan Akademi Kesenian Sebastiar Perak
- Project Location: Buntong, Ipoh, Perak
- Funding Allocated: RM31,375.00

Ipoh Barat | Project 2
Inter-Agency Dialogue initiative and Localised solutions

- Solution Provider: Persatuan Kebajikan Komuniti dan Dialog
- Project Location: Kg. Tai Lee and Jalan Spooner, Buntong, Ipoh
- Funding Allocated: RM20,000.00
Ipoh Barat | Project 3
Tiny Steps: Environmental Changemaker Youth Leadership programme
- Solution Provider: Alison Yoon Education Consultancy
- Project Location: Ipoh Barat national schools
- Funding Allocated: RM39,130.00

Ipoh Barat | Project 4
Smart Car Spa
- Solution Provider: PERSATUAN AKADEMI URUMI MALAYSIA
- Project Location: Buntong Perak
- Funding Allocated: RM29,495.00

Kuala Selangor | Project 1
Online Marketplace Masterclass
- Solution Provider: Pertubuhan Pembangunan Intelektual Malaysia
- Project Location: Kuala Selangor
- Funding Allocated: RM30,320.00
Kuala Selangor | Project 2
Google Maps Business Mapping

- Solution Provider: Universiti Selangor (UNISEL)
- Project Location: Kampung Bukit Cherakah, DUN N.11 Ijok
- Funding Allocated: RM26,720.00

Kuala Selangor | Project 3
Small Scale Community Learning Subsistence Farm

- Solution Provider: RESTORE (Pertubuhan Pemulihan Ekologi dan Kepelbagaian Biologi Malaysia)
- Project Location: Masjid Al-Awwabin, Bestari Jaya, Kuala Selangor
- Funding Allocated: RM30,960.00

Kuala Selangor | Project 4
Community Empowerment Through Eco Therapy Modules

- Solution Provider: Pertubuhan Alam Sekitar Sejahtera Malaysia (GRASS MALAYSIA)
- Project Location: Kampung Bukit Badong
- Funding Allocated: RM32,000.00
Selayang | Project 1
Air Conditioner Skill Training for Youths
- Solution Provider: Pertubuhan Perkhidmatan Sosial Dan Pembangunan Komuniti Daerah Gombak, Selangor (PSPK)
- Project Location: Selayang, Selangor
- Funding Allocated: RM16,770.00

Selayang | Project 2
Skills for Self-Employment (Bakery)
- Solution Provider: Pertubuhan Perkhidmatan Sosial Dan Pembangunan Komuniti Daerah Gombak, Selangor (PSPK)
- Project Location: Selayang, Selangor
- Funding Allocated: RM19,150.00

Selayang | Project 3
Beyond Bin Recycle Project
- Solution Provider: Pertubuhan Perkhidmatan Sosial Dan Pembangunan Komuniti Daerah Gombak, Selangor (PSPK)
- Project Location: Selayang, Selangor
- Funding Allocated: RM14,080.00
Lembah Pantai | Project 1
The Changemaker Journey for Youths

- Solution Provider: Persatuan Pemangkin Usahawan Sosial (Social Entrepreneur Development Association)
- Project Location: PPR Lembah Pantai
- Funding Allocated: RM24,000.00

Lembah Pantai | Project 2
Community Livelihood programme for PPR Families through Financial and Digital Inclusion

Ms. Syahirah Khanum
Communication and Capacity Building Officer
The Malaysian CSO-SDG Alliance was set up in late 2015 after the United Nations launched the Sustainable Development Goals as the 2030 agenda with 17 SDG goals in September 2015.

The Alliance has been active in providing input to the formulation of the SDG Roadmap and the National Voluntary Review (2017 and 2021). Since 2016 the Alliance has been a member of the National SDG Steering Committee which was formed by the Economic Planning Unit, PM Department. It participated in National SDG gatherings in 2016 and 2019, as well as has been active at the international level at the High-Level Political Forum (HLPF in 2017 and 2021) when Malaysia tabled the VNR report.

Previously, the alliance is more on networking based and we maintain our interaction via WhatsApp group. In 2021, we started to request our members to update their databases and register to become an official member of the alliance. We also encourage our solution providers to become alliance members.

All our members are registered organisations and our membership is open to all organisation interested to be part of this network of organisations. 73 organisations including umbrella organisations and individual organisations.

On December 21, 2021, we started the Alliance member’s quarterly meeting to meet physically or via online to keep the alliance members updated about the current progress.
SOCIETY FOR THE PROMOTION OF SDGS

The SDG Society was formed in early 2020 as the legal entity to carry out the secretariat duties for the All Party Parliamentary Group Malaysia on SDGs (APPGM-SDG) and also for the Malaysian CSO-SDG Alliance which is a group of 73 CSOs/NGOs focused on economic, social and environmental concerns.

The SDG Society employs all the secretariat staff and manages the funds allocated by the Ministry of Finance (MoF) according to the approved Annual Budget as well as following the guideline set.

Monthly activity reports and financial statement are presented to MoF, EPU and Parliament. The SDG Societies’ Second AGM was held on March 9, 2021 at the Dewan Tun Hussein Onn, PWTC and attended by 12 out of the 16 members. All the members of the SDG Society serve as APPGM-SDG Resource persons or as staff in the secretariat.

The Office Bearers of the Society are:-
President : Prof Datuk Dr. Denison Jayasooria
Deputy President : Dr. Lin Mui Kang
Secretary : Alizan Mahadi
Assistant Secretary: James Ryan Raj
Treasurer : Kon Onn Sein
